Questions	These are the answers:
Did the speech have a structure of Opening, Body, and Conclusion?	The speech had a loose structure, but it did follow an introductory-body-conclusion format to some extent.
How was the quality of research for the topic? Did the student's speech demonstrate a good depth? Did they cite sources of research properly?	The research quality is questionable as there is no specific mention of sources or depth of knowledge on the topic, but Eira does show familiarity with relevant tools and concepts in ML and data science fields.
How convinced were you with the overall speech on the topic? Was it persuasive? Will you consider them for the job/opportunity?	While Eira's passion for her work and confidence shine through, I'm not entirely convinced by her overall speech. She has some great strengths to bring to the role, but her weakness discussion feels somewhat unusual and unrelated to the job itself.
